A(ME)ZON | [FIREBASE DEPLOY](#) | [DEMO VIDEO](#)

April 2021 - May 2021

A fully functioning 'Amazon.com' e-commerce website clone made with "Stripe" e-commerce for backend.

- Implemented Stripe for a safe and full back end e-commerce payment feature.
- Utilized Firebase Database to store user profile data and deployed it using Firebase Hosting.
- Styled the CSS front-end from scratch to photo identical Amazon.com UI and UX.
- Used React Context Api to keep track of products in the user's cart before check out.

MOODY | [DEMO VIDEO](#)

March 2021

A mobile chat app that bridges the gap between plain text messages and the emotion behind messages by labeling/ color coding each message bubble.

- Learned a full-stack (React Native / Firebase) and created a fully functioning mobile chat application within 2 weeks.
- Utilized React Native to create this mobile application to be responsive for any mobile OS.
- Used FireBase "Snapshot" feature to create real time instant rendering of new messages for the back end.
- Used Async Storage to keep users logged in when they close the app without logging out.

(ME)FLIX | [FIREBASE DEPLOY](#) | [DEMO VIDEO](#)

June 2021

A static homepage that renders data with my recreation of Netflix's UI design.

- Utilized TMDB, an online API for movies to fetch the website's data.
- Used React Flex boxes to render data fetched from the API in a row slider similar to NETFLIX.
- Deployed web application with Firebase hosting.

SOHO GRAND HOTEL | NEW YORK, NY | SOUS CHEF

JANUARY 2020 - NOVEMBER 2020

- Trained the kitchen staff all the skills and techniques necessary for a smoother and fool proof procedure that optimized quality and quantity at same time for any busy service.
- Reworked all the recipes based on sales per day of the week then structured a to-do list schedule to maintain supply and quality for very fast paced, high volume demand for a year round 24/7 operation.

ROXY HOTEL | NEW YORK, NY | SOUS CHEF

SEPTEMBER 2018 - DECEMBER 2019

- Directed and emphasized the communication between front and back of the house operations to ensure flawless shift operations.
- Introduced a new schedule to all brunch, dinner and overnight teams to ensure a smooth transition in between busy shifts.
